PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 3 years of experience building and deploying enterprise-level web applications. Proficient in JavaScript, React, Angular, and Tailwind CSS, with hands-on experience in production deployment using Nginx and Jenkins. Adept at cross-functional team collaboration, RESTful API integration, and delivering reliable, scalable systems for banking and enterprise environments.

TECHNICAL SKILLS

Languages & Frameworks	JavaScript (ES6+), React, Angular, .NET
Styling	Tailwind CSS, Angular Material, Ant Design
State Management	Redux
Database & Integration	MySQL, REST API
Tools & Libraries	Git, VS Code, Jenkins, Nginx, Redux, ApexCharts, React Easy Crop, Google Maps API

PROFESSIONAL EXPERIENCE

PT. Bank Mandiri Tbk September 2022 – Present
Software Engineer

MCAP – Mobile Collateral Appraisal Project (Angular, Tailwind CSS, Angular Material) Sep 2022 – Aug 2024

- Translated Figma UI designs into responsive Angular components to ensure a consistent user experience across devices
- Integrated the frontend with RESTful backend APIs to support dynamic data rendering and real-time updates
- Embedded Google Maps API to enable location-based features and interactive geospatial visualization
- Automated build and deployment processes using Jenkins CI/CD pipeline
- Configured and deployed production builds on Linux servers using Nginx

CMS – Collateral Management System (.NET, MySQL) Sep 2024 – Apr 2025

- Integrated frontend and backend components with core banking systems to ensure seamless data flow
- Aligned system fields and data structures based on detailed business requirements and stakeholder specifications
- Managed the full deployment process to the production environment, ensuring system stability and availability

ORP – Operation Request Portal (React, Redux, Tailwind CSS, Ant Design) May 2025 – Present

- Developed a modern, responsive UI by converting Figma designs into reusable React components
- Managed global application state using Redux to ensure predictable data flow across complex UI interactions
- Integrated backend APIs to support real-time user interactions and live data synchronization
- Built advanced image adjustment features using the React Easy Crop library
- Implemented interactive dashboards and data visualization reports using ApexCharts

EDUCATION

Politeknik Negeri Bandung 2017 – 2020
Diploma – Civil Engineering
GPA: 3.01 / 4.00
